PROFESSIONAL SUMMARY

Being employed at the University of Technology Sydney (UTS) for **1.5 Years**, I began my tenure as a **U:PASS leader and First Year Success advisor**, where I lead Mathematics and Programming, and mentor students' initiatives within the FEIT student community. Additionally, I was serving as an **IT Project Management Office Assistant Administrator**. In this role, I manage multiple project requests, specifically in the maintenance and enhancement categories, proactively resolving multiple project issues, and communicating with multiple Project Managers in ITU department on a daily basis through Teams and Service Connect.

ACADEMIC SUMMARY

Assisting supervised research projects for **more than 1 year**, I have worked under several professors at UTS for various departments' research projects, including **UTS Australian Artificial Intelligence Institute (AAII)**, **Robotics Society**, and **Centre for Quantum Software and Information (QSI).** Additionally, as a technology enthusiast with a global perspective, I have consistently demonstrated academic excellence. I specialized in **Computer Science Honour** with an emphasis on **AI and Data Analytics** at the University of Technology Sydney (UTS). My academic rigor was recognized with a selection to the **Dean's List** in 2024, and I have achieved **High Distinctions in all subjects at UTS**. Previously, I was awarded a **scholarship** for outstanding academic achievements, I spent four enriching years studying in **Singapore**'s secondary and junior college education systems.

SKILLS

- Decision-Making
- Problem Solving
- Skilled Multi-tasker
- Project Connect (Clarity)
- Service Connect (ServiceNow)
- MS Teams
- Microsoft Power BI
- SharePoint
- Jira
- Miro

EDUCATION

- Bachelor of Science in IT: AI and Data Analytics (Honours) (Expected in June 2025) University of Technology Sydney **(UTS),** Sydney, NSW
- Advanced diploma in Mathematics at National University of Singapore **(NUS)**
- Hwa Choong Junior College, **Singapore**

PROFESSIONAL EXPERIENCE

UTS U:PASS Mathematics and Programming Leader (March 2024 – Present)

- **Profiency in communication**
- Expert at **PPT** slides creation and **Menti/Kahoot** Quiz creation
- Strong tutoring skills in Linear Algebra, Matrices, Statistics, Probabilities and Calculus, Python, Collab, Pytorch, Tensorflow.
- Proficient in running class of **20 students** in mathematics and programming, ability to teach and answer from basic to competition level questions.
- Utilized peer-learning and critical thinking skills for students, robust skills in using **Boardwork model** to teach complex questions.

UTS First Year Success Advisor (September 2024-Present)

- **Mentored students** to help them understand course structures, subject selections, and assignment requirements
- Supported first-year students with academic transition, **study planning**, and accessing university support services
- Provided **one-on-one guidance** through drop-ins and scheduled advising sessions, both online and in-person
- Communicated clearly with a diverse student population from **various cultural and educational backgrounds**
- Promoted engagement and belonging by **connecting students to peer programs, clubs, and events**

UTS IT Project Management Office Assistant Administrator (August 2024-February 2025)

(The UTS IT Project Management Office (PMO) is an organizational function responsible for facilitating the Lean Portfolio Management process and for fostering operational excellence and lean governance. The PMO will operate as an Agile team within Agile Enablement Function in partnership with ITU and business leadership, ARTs and other enabling functions to optimize the flow of strategic value delivered within a M&E portfolio)

- Resolving tickets on **Service Connect**
- **MS Teams and Outlook** project filing and meeting bookings
- Lean Business case dashboard Maintain and Enhance on **Excel**.
- IT PMO **PowerBI** M&E

- IT PMO **SharePoint** M&E
- Rebase-lining Projects on **Project Connect**
- Weekly IT PMO DL updates on **Outlook** Address notebook
- **Jira Kanban** and Jira **Roadmap** updates
- **Miro** timeline creation
- Governing **Idea to Project conversion, Project generation and stage changes on Project Connect, Monthly Project Connect audit.**
- Activity start-off and Events catering using **Webroom Booking**
- **PowerBI M&E and data pulling from Project Connect (clarity)**
- **Web-room booking** and events catering

UTS Student Steering Committee Ambassador (July 2024-November 2024)

- Worked under **Professor Helen Lu, for Unit Introduction to AI (41040)**
- Represent students in the **Introduction to AI unit (41040**) for regular meetups (fortnightly), such as expressing concerns, **reporting difficulties and making suggestions**, and taking care of a lab group as the leaders.
- Reach out to students for **feedback** on subject matters, such as the lab tasks, classes, assignment specifications and supportive materials.
- **Receive and resolve multiple complaints**, suggestions or comments **on daily basis** that are related to the subject delivery.
- Ensuring a better Channel for better communication between the UTS Introduction to AI teaching teams and students.

UTS RESEARCH EXPERIENCE (July 2024 – Present)

- **Developing WebArXiv: Evaluating Multimodal Agents on Time-Invariant arXiv Tasks with Dr. Zijing Shi & Professor Ling Chen (UTS Australian Artificial Intelligence Institute (AAII))**
- Developing Multilingual Machine Learning Models for European language debias evaluation metrics under supervision of **Dr. Ling Chen (UTS Australian Artificial Intelligence Institute (AAII))** and **Dr. Fang Meng (University of Liverpool)**
- Assisting 3D Reconstruction nail rasterization project with Postdoctoral Research Fellow **Dr. Yanhao Zhang (UTS Robotics Society)**
- Assisting Quantum Computer SABRE Algorithm Implementation project with **Dr. Sanjiang Li (UTS Centre for Quantum Software and Information (QSI))**
