Benjamin (Zihao) Sun

RESEARCH CV | AI EVALUATION • LANGUAGE MODELS • COMPUTER VISION

Rydalmere, NSW | 0493 302 417 | sun.zihao@uts.edu.au

RESEARCH CONTRIBUTIONS AND PAPERS

Four research papers: one accepted at AJCAI 2026; three under review at NAACL 2027 SRW and ACE 2027.

WebArxiv

February 2025 - May 2026

UTS Australian Artificial Intelligence Institute (AAII)

AJCAI 2026 | ACCEPTED | FIRST AUTHOR

WebArxiv: A Reproducible Benchmark for Evaluating Multimodal Web Agents on arXiv Tasks

Zihao Sun, Zijing Shi and Ling Chen.

- Developed the benchmark and web-agent components for scholarly search and retrieval; the study evaluates **10 systems across 510 tasks in six categories**.
- Developed **adaptive memory/reflection methods** that select relevant earlier interactions to support subsequent decisions.

Preprint arxiv.org/abs/2507.00938

Multilingual language-model bias evaluation

June 2024 - April 2025

UTS AAII and Eindhoven University of Technology

NAACL 2027 SRW | SUBMITTED | UNDER REVIEW

From Language to Country to Valence: A Multilingual Audit of Stereotype Bias Across LLMs

- Built the **collection, cleaning, stereotype-filtering and cross-language evaluation pipeline**.
- Contributed experiments and visualisation to a study of **12,000 examples across four languages, three bias categories and six models**.

Zihao Sun. Conference decision pending.

Squidle+ marine image analysis

March 2026 - Present

Institute for Marine and Antarctic Studies (IMAS) and UTS AAII

- Develop **human-in-the-loop image-classification tools** for marine and Antarctic ecological datasets.
- Design scientist-facing workflows for reviewing imagery, filtering hard substrates and supporting species detection.

Platform squidle.org

CONFERENCE SUBMISSIONS

From Source-Based Quizzes to Reteaching Decisions: A Practitioner Guide to ClassQuest

Zihao Sun. ACE 2027 practitioner paper; submitted; under review.

Teaching Students to Qualify AI Research Claims with PaperWeave

Zihao Sun. ACE 2027 practitioner paper; submitted; under review.

EDUCATION AND DISTINCTIONS

Bachelor of Computing Science (Honours)

Expected June 2027

University of Technology Sydney

Major in Artificial Intelligence and Data Analytics.

WAM 92.62; GPA 7.00/7.00. High Distinctions in all 16 completed graded subjects (June 2026 record).

Dean's List 2024 and 2025.

Selected marks: Computing Science Studio 2 100; AI/Analytics Capstone 98; Natural Language Processing 93.

TEACHING AND RESEARCH COMMUNICATION

Academic Tutor

March 2024 - Present

University of Technology Sydney

- Rated the **top tutor by students in all three subjects taught**, based on student feedback.
- Delivered **50+ sessions** in mathematical statistics, Python programming and computing research using interactive materials and worked examples.

Data Arena Presenter

March 2026 - Present

University of Technology Sydney

- Deliver immersive **3D data demonstrations** and explain research and AI concepts to academic, industry and international audiences.

Facility dataarena.net

OTHER PROFESSIONAL EXPERIENCE

IT PMO Assistant Administrator

August 2024 - February 2025

UTS IT Division

Maintained dashboards and reporting, coordinated timelines and supported project-record audits.

First Year Success Advisor

September 2024 - October 2025

University of Technology Sydney

Mentored students in course planning, subject selection and the transition to university.

RESEARCH AND TECHNICAL SKILLS

Programming Python, MATLAB, R and C++; GitHub.

Machine learning and imaging PyTorch, TensorFlow, scikit-learn, Pandas and OpenCV.

Methods Benchmark design, data collection and cleaning, model evaluation, statistical analysis, literature review and survey design.

Communication and visualisation Scientific presentations, workshop facilitation, Power BI and Excel.

ADDITIONAL QUALIFICATIONS

Advanced Diploma in Mathematics — National University of Singapore.

Certificate of Data Analysis — Institute of Data, UTS.

SM1 merit scholarship — Singapore.
